

You are not prepared or ready for the change because you choose to live in comfort zone.

Learning to live above the line is the key

Comfort stops your growth.

It has order - which helps you live with mediocrity.

Below the line is good to do things which are day in and day out the same.

Three ways growth is generally triggered.

① When it is forced upon you
Eg: Competition,
Boss forcing you

② Someone inspires you
Eg: Mentors
Teachers

③ Set backs
Eg: Accidents
Losing jobs
